- 21.95%.. pressured

UK Data: Injection IS the Pandemic for <45

BBC Accidentally Confirms: Covid-19 was NOT a deadly pandemic in Scotland

<https://www.bbc.com/news/uk-scotland-scotland-politics-67206579>

“Scotland's winter death toll worst in more than 30 years”, 24 Oct 2023

“Data from National Records of Scotland (NRS) showed there were 24,427 deaths registered between December 2022 and March 2023 - 11% more than the previous winter and the highest since 1989-90.”

Q1: Wasn't Covid-19 in 2020/21 sold as a once-in-a-century pandemic ?

Q2: Weren't the Covid-19 injections sold as “safe and effective” ?

**Then HOW is it possible that 2022/23 winter mortality is
highest in 30 years?**

“Vaccines” or Autoimmune Disease Agents ?

These slides at: <https://tinyurl.com/u5news>

BAMBOOZLED BY COVID-19

A RETROSPECTIVE VIEW
OF THE PANDEMIC
AND ITS NOVEL VACCINES

SANDEEP CHAKRABORTY

The MECHANISM of mRNA (Pfizer/Moderna) & adenovirus-vectored (Covishield/Astrazeneca/J&J) Covid-19 “vaccines”

- mRNA/DNA enters body cells
 - No one knows exactly which cells it can enter
 - Those cells produce a foreign protein (the spike)
 - Body’s **immune system attacks its own cells** – autoimmune disease
-
- This **novel medical experiment** was done on billions of people worldwide, including **children**
 - “Vaccines” using the traditional inactivated virus method (Covaxin) are less delusional, but also lack safety/efficacy data

Statistical flaws in study exonerating role of C19 vax in heart attacks

- A recent cohort study from Delhi's G.B.Pant hospital is being used in media propaganda to exonerate the C19 vax from heart attacks: [[link](#)]
- However the study is deeply flawed. It is so flawed that it finds miraculous properties of the C19 jabs which even the vax manufacturers are unaware!
- I point out three basic statistical flaws here: (1) unhealthy cohort, (2) survivor bias, (3) healthy-vaccinee bias: "Fundamental data flaws' in study exonerating role of Covid-19 vaccine in cardiac arrests" –
<https://www.counterview.net/2023/09/fundamental-data-flaws-in-study.html>
- Dr. Deepak Natarajan, senior cardiologist with clinical domain knowledge, critiques the study here: <https://twitter.com/deepakdeepak/status/1698565016104931359>
- Another writeup critiquing the study: "Jabs 'study': Science takes backseat; glamour, glitz serves as fast food for imagination" –
<https://www.counterview.net/2023/09/jabs-study-science-takes-backseat.html>
- Claims of safety should be based on sound studies, not on flawed ones.

“The Vaccine War”: A Technical Review

Review URL:

<https://tinyurl.com/vax-war-review1>

“There are several crowning achievements of Indian scientists over the ages; Covid-19 vaccine development and rollout is most emphatically not among them.”

What the movie got right

- 1) Choice of vaccine technology
- 2) Keeping Pfizer out of India
- 3) The CCP-WHO nexus
- 4) Social media censorship
- 5) Media as the problem

The Bad and The Ugly

- I. Gross Exaggeration of Disease Threat
- II. Denial of Immunity after Natural Infection
- III. The “Foreign Vaccine Not Approved” Strawman
- IV. The Claim of Immunity = Antibodies
- V. Dishonesty about Waning Efficacy
- VI. Rejection of Alternative Cures
- VII. Inadvertant Explanations for 2nd Wave Medical Stampede
- VIII. Vaccine Safety Swept Under the Rug
- IX. On the Numbers Behind Covaxin for Children
- X. Is Covaxin a Celebration of Women?
- XI. Follow the Science, Wear a Mask
- XII. The Whitewashing of Human/Child Right Violations

The Lockdown & Covid Response Museum

- *She chokes up when recounting how her son (now in class-3) is unable to learn much in school: he couldn't learn anything during 2 years of school shutdown*
- *He tells how farmers had to harvest at night, fearing police & the lockdown*
- *She says how everyone including school children were forced into the mass medical experiment: no jab meant no livelihood or education*
- *She relates how she was denied routine labour care and even had to wear a mask during labour and delivery*

All these, and more tales from the wreckage, in

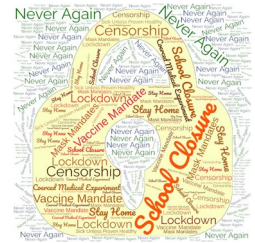

“The Lockdown and Covid Response Museum” <https://uho.org.in/ldm/>

Because lives wrecked aren't just numbers

Was the Covid-19 “vaccination” drive in India necessary at all?

Was *Fear* of Covid-19 Man-made?

2022: more mortality, no fear
2020: lesser mortality, apocalyptic

FEAR

*Fear in 2020 was **NOT** based on observed reality, but on **manufactured fear***

Detailed writeup: <https://empirediaries.com/2022/12/02/covid19-excess-deaths/>

Lockdowns = FRAUD

Common Sense Questions: for Common People to ask Covid-19 Experts

- 1) For which **age-groups** was Covid-19 a danger?
- 2) What is/was the **false-positive rate** of the PCR test?
- 3) Why was **immunity after natural exposure** not considered?
- 4) What is the rationale behind mass-use of **experimental C19 vaccines for children**, inadequately tested even on adults (Corbevax)?
- 5) When anyone can spread the virus, what was the rationale behind **vaccine coercion & mandates**?

सामान्य ज्ञान प्रश्न:

आम लोगों के लिए कोविड-19 विशेषज्ञों से पूछने के लिए

- 1) किस आयु वर्ग के लिए कोविड-19 खतरनाक था?
- 2) पीसीआर परीक्षण की झूठी पॉजिटिव दर क्या है / थी?
- 3) प्राकृतिक संक्रमण के बाद प्रतिरक्षा पर भरोसा क्यों नहीं किया गया?
- 4) बच्चों के लिए प्रायोगिक C19 टीकों के बड़े पैमाने पर उपयोग के पीछे तर्क क्या है, वयस्कों पर भी अपर्याप्त रूप से परीक्षण किया गया (कोर्बिवक्स)?
- 5) जब कोई भी वायरस फैला सकता है, तो वैक्सीन की जबरदस्ती और शासनादेश के पीछे क्या तर्क था?

SARS-Cov-2 was Circulating in mid-2019

*“Molecular evidence for **SARS-CoV-2 infection** was found in...
25% (11/44) for the pre-pandemic cases”*

*“a SARS-CoV-2 progenitor... may have emerged in **late June-late July 2019**... spreading globally before the first Wuhan outbreak”*

Happy Independence Day to All Indians

Freedom fighters versus Lockdowners

What is the difference between freedom fighters and lockdowners ?

*Freedom fighters **sacrificed** their **own lives**, for they held their fellow citizens' **freedom** dear*

*Lockdowners **sacrificed** their fellow citizens' **freedom**, for they held their **own life** dear*

Happy Independence Day to All Indians

Reassertion of Birth Right

My right to existence as a normal human being is my birth right.

To laugh or cry, to celebrate or mourn, to hug a willing fellow human, to visit or host my family or friend, to socialize, to sing or play or dance, to receive or impart education, to decide my own health priorities and risks, and above all to earn an honest livelihood. To be a normal human being is my birth right.

Humans are not inert units but social beings existing in a state of dynamic equilibrium within a biological ecosystem which includes microbes.

School Closure = Betrayal of Children

Israel's Largest Spike in Deaths in Recent History

— Z-score - - - Baseline ■ Normal range - - - Substantial increase ■ Corrected for delay in registration

- Z-Score is a measure of how extreme a value is, away from the mean
- Israel's **largest spike in deaths** in recent history was in February 2022
- Israel had rolled out 4-doses of the Covid-19 “vaccines” by then

mRNA jab increases myocarditis risk by 8-30x

- “Age and sex-specific risks of myocarditis and pericarditis following Covid-19 messenger RNA vaccines”, Nature Comm., 25 June 2022 [[link](#)]
 - “adjusted odds ratios of myocarditis of **8.1** (95% confidence interval [CI], 6.7 to 9.9) for the BNT162b2 and **30** (95% CI, 21 to 43) for the mRNA-1273 vaccine”
 - “largest associations are observed for myocarditis following mRNA-1273 vaccination in persons aged **18 to 24 years**”
- *Factor of risk increase after jab: **8.1x (Pfizer), 30x (Moderna)***
- *Risk increase **even higher in 18-24 year olds***
- This is the same age-group in which **colleges have been coercing and mandating** these injections: *mass psychosis in media manufactured mania*

These slides at: <https://tinyurl.com/u5news>

Increased overall hospitalization after C19 jab?

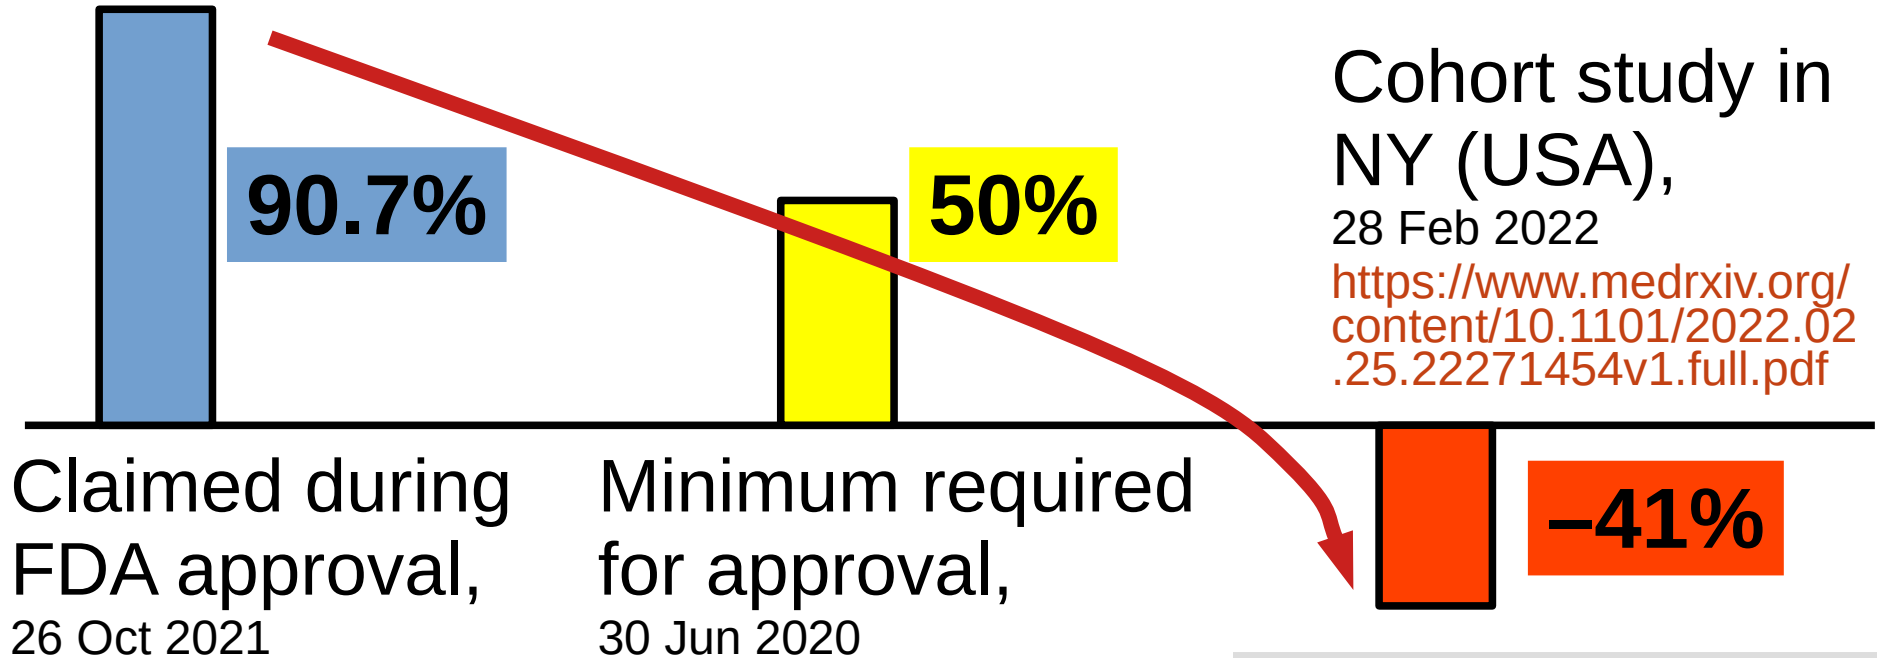

- A pre-print which compares increased serious adverse events with risk reduction for C19 hospitalization (23 Jun 2022): https://papers.ssrn.com/sol3/papers.cfm?abstract_id=4125239
 - “Serious Adverse Events of Special Interest Following mRNA Vaccination in Randomized Trials”
 - "absolute risk increase of 10.1 and 15.1 per 10,000 vaccinated over placebo baselines of 17.6 and 42.2"
 - *"The **excess risk** of serious adverse events of special interest **surpassed the risk reduction** for COVID-19 hospitalization relative to the placebo group in both Pfizer and Moderna trials (2.3 and 6.4 per 10,000 participants, respectively)."*
- News coverage on this: <https://www.israelnationalnews.com/news/355426> **“BMJ Senior Editor: COVID vaccines more likely to put you in hospital than keep you out”**
- The jab trials have since the beginning had **basic math shenanigans**: clubbing together age-groups with widely varying risks.
- Media psy-op has had even more **basic math shenanigans**: counting only C19 and not all-cause: for mortality or for hospitalization. Also the **basic biology flaw** of discounting immunity after natural exposure.
- Above study considers Pfizer & Moderna jabs. But note that several European countries stopped AstraZeneca (Covishield) for younger age groups, in favour of the Pfizer jab.
- Above study also does not separate by age, since it is a secondary analysis of the jab phase-3 trials; so the risk-benefit is likely to be even worse for the younger age-groups.
- India has also had widespread natural exposure even as of July 2021, so the jab benefit is likely to be lower and risk higher.
- Terming these injections as vaccines, and that too ahead of the trial results, and in the midst of obvious failed promises, is an extreme anti-vax position.

These slides at: <https://tinyurl.com/u5news>

COVID-19 Misinformation from Official Sources During the Pandemic

- This was filed on 02 May 2022 in response to a call by US surgeon general for examples of misinformation:
https://content.govdelivery.com/attachments/INAG/2022/05/16/file_attachments/2159907/Indiana%20Attorney%20General%20COVID%20Misinformation%20Submission.pdf
- 9 examples cited, of misinformation from the CDC and other official sources (also copied in India):
 - Overcounting COVID-19
 - Questioning Natural Immunity
 - COVID-19 Vaccines Prevent Transmission
 - School Closures Were Effective and Costless
 - Everyone is equally at risk of hospitalization and death from COVID-19 infection
 - There was no reasonable policy alternative to lockdowns
 - Mask mandates are effective in reducing the spread of viral infectious diseases
 - Mass testing of asymptomatic individuals and contact tracing of positive cases is effective in reducing disease spread
 - The eradication of COVID-19 is a feasible goal
- After so much misinformation, the same geniuses at the CDC are suggesting more of the same misinformation, after rebound of Covid symptoms, after 5 days of Paxlovid. And that too after the 3rd dose of the elixir, which came after the first two doses, which came after promises of two doses being 95% effective against symptomatic Covid.
- Can anyone possibly think any of this has been about saving lives?

https://journals.lww.com/americantherapeutics/Citation/9000/Acute_Cardiac_Events_After_ChAdOx1_nCoV_19_Corona.97969.aspx

Reality vs the Ostrich Approach

“The **risk of myocarditis** in this large cohort study was **highest in young males** after the second SARS-CoV-2 vaccine dose, and this risk should be balanced against the benefits of protecting against severe COVID-19 disease.”

-- “SARS-CoV-2 Vaccination and Myocarditis in a Nordic Cohort Study of 23 Million Residents”, 20 Apr 2022,
<https://jamanetwork.com/journals/jamacardiology/fullarticle/2791253>

“A post mortem revealed that there was a **blood clot in the 18-year-old boy’s heart**. According to Dr Jitendra Sharma, who works at the Ujjain hospital, the clot occurred because of the loud music played by the DJ during the wedding procession.”

-- “Killer tunes? MP boy dies dancing at wedding, doctor claims loud DJ music proved fatal”, 07 May 2022,
<https://www.indiatoday.in/amp/india/story/mp-ujjain-boy-dies-dancing-at-wedding-doctor-claims-loud-dj-music-proved-fatal-1946553-2022-05-07>

Injection mandates defeated at the Supreme Court

- “BREAKING| Nobody Can Be Forced To Get Vaccinated; Vaccine Mandates Not Proportionate : Supreme Court”
<https://www.livelaw.in/top-stories/nobody-can-be-forced-to-get-vaccinated-vaccine-mandates-not-proportionate-supreme-court-198032>
- After a long delay, the Supreme Court has finally given its ruling on the mandated injections (*) imposed by various states and private entities
 - (*) An injection can be called a vaccine only after trials are complete AND data scrutinized AND found favourable
- The delay meant that far too many Indians were coerced into a medical procedure, in violation of “informed consent”; many have faced adverse events, some even died
- But the delay also meant that the failure of these injections was far more apparent: difficult for judges and lawyers to escape the reality that everyone jabbed also got Covid
- “Bench: No data has been provided by UoI or States before us controverting the material placed by petitioner which indicates that the risk of transmission by unvaccinated is at par with vaccinated.”
<https://twitter.com/LiveLawIndia/status/1520992286397845504>
- It was nice that the court recognized *one* of the many scientific reasons for why these mandates are/were utterly absurd
- It is now time for the erstwhile “liberals” and “human rights activists” to realize that they’ve been played by WHO and pharma mafia with this baseless and divisive propaganda of “your job works only if everyone on the planet is injected with some unspecified number of jabs”
- Although a victory, it is not a hands-down victory; “pharma mafia’s wrath will be terrible and its retribution swift; the battle against jab mandates is over, the battle against kids’ jabs is about to begin” (LOTR)

School conditional on medical experiment (C19 jabs) in Chandigarh

- School conditional on medical experiment (C19 jabs) in Chandigarh: <https://twitter.com/nagarkoti/status/1518571788091162624>
- There has been no Covid problem for kids anywhere in the world
- Current C19 jabs haven't lived up to promise: is a gross understatement
- Corbevax hasn't even been tested on adults in trial mode; experimenting with it on kids is against written guidelines
- 2-year school closure cannot be explained without attributing a sociopathic agenda
- Making school conditional on medical experiment cannot be explained without attributing a sociopathic agenda
- Supreme Court wishes to remain silent on the blatant unconstitutional injustice: <https://www.livelaw.in/top-stories/supreme-court-refuses-to-interfere-with-karnataka-govts-vaccine-mandate-to-attend-colleges-197463>
- Everyone must protest this in the strongest possible manner, otherwise the cancer will spread
- The time to stand up for kids is NOW
- --Bhaskar (Twitter, Telegram: @br_cse_iitb)

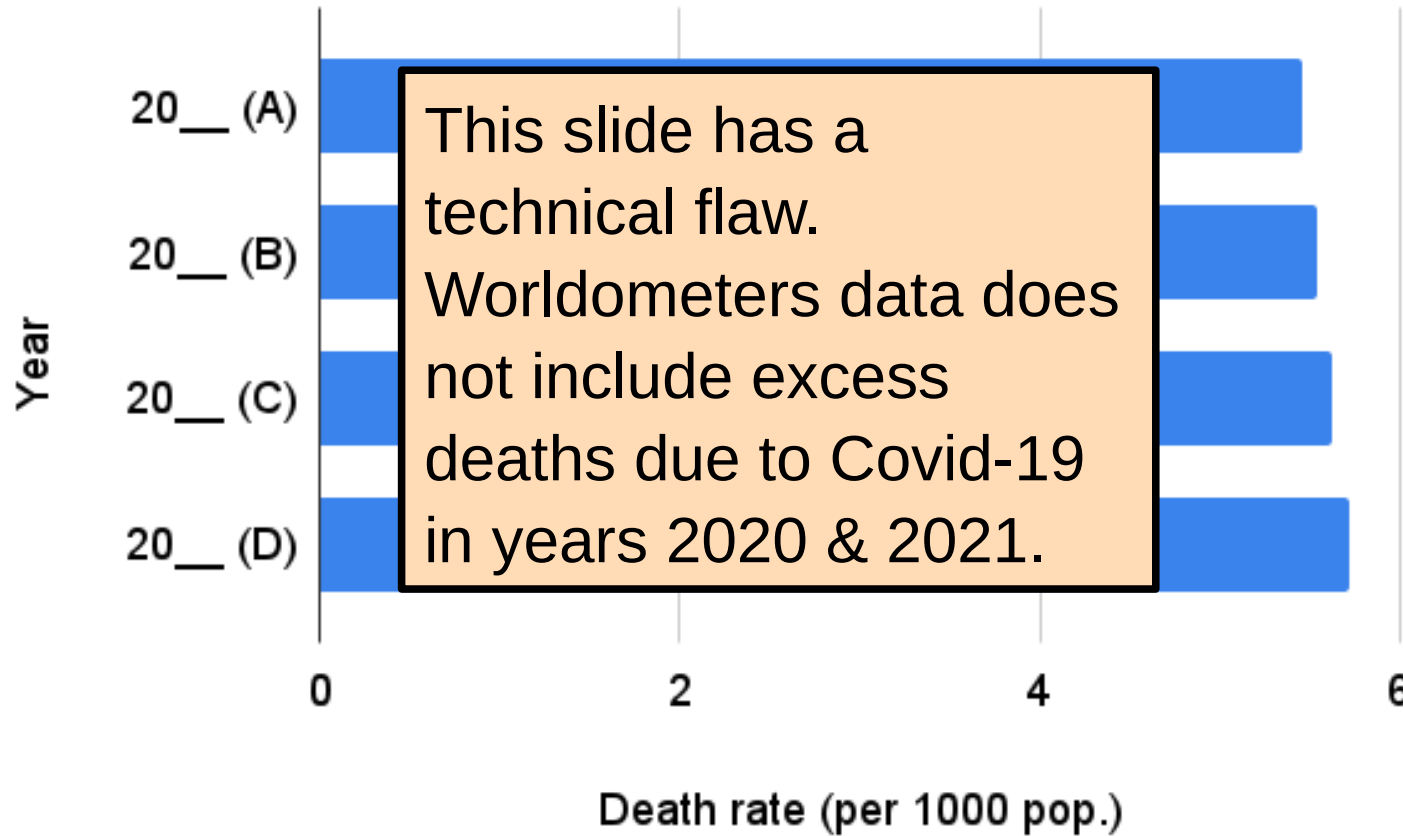

Stephen Petty - On the effectiveness of masks

- <https://youtu.be/J3dnkbKoj4A>, 05 Apr 2022, Notes by Bhaskaran Raman
- 00:00 Introduction: Stephen Petty, 45 years of experience as safety engineer; chemical/bio-agent exposure, PPE, etc
- 01:00 New Hampshire and other graphs/data showing no effect of masks; Danish mask study
- 03:00 Studies which supposedly show masks work have two problems: no control group, other confounding factors
- 04:00 Visible dust is 50 micron; virus is 500 times smaller than what we can see; virus 1000 times smaller than cross-section of human hair; mask gaps below the eye: freeway for virus to come and go; source control argument is bogus; freeway for virus in both directions
- 05:10 Covid being droplet is false; 99.9% of virus particles are aerosols (< 5 micron); droplets fall to the ground quickly (minutes max); aerosols can take up to 50 days
- 06:30 Cannot seal a mask, by definition; a mask that seals is a respirator
- 07:00 "May be masks can help a little"; too little, may be 1%; asbestos particles 50 times larger than virus; workers need to use respirators
- 08:00 What about N95? These are no good for asbestos workers; can't be good for virus either; N95 glued on has 46% effectiveness; with gap it has 3% effectiveness
- 09:20 14 Jan 2022 the CDC admitted that masks don't work; then said children should wear N95, but manufacturer 3M says "not designated to be used by children"
- 11:30 What about damage to children? Loss of math skills 12-15%; Brown univ study: 23% reduction in learning
- 12:40 UK dept of education study: 94% teachers said masks made communication difficult; 59% said much more difficult

UK Death Rate Among 10-14y, 15-19y

All-Cause Death-Rate in Peru: Identify 2020, 2021

- Peru has the highest Covid deaths per million: 6,108 (as of 02 Feb 2022)
- This graph has the overall death rate in Peru in 2018, 2019, 2020, 2021, in jumbled order
- **Identify 2020, 2021**

For Kids' Sake, End COVID Fixation, Start Undoing the Harm Done to Them

<https://www.news18.com/news/opinion/for-kids-sake-end-covid-fixation-start-undoing-the-harm-done-to-them-4708805.html>

“Have we adhered to “do no harm to kids” in the last two years?”

“Harms due to ^{5,714}unreasonable fear”

“जान है तो जहान है”.. is a cruel twist

“start schools.. stop disruptive social distancing.. stop asymptomatic testing.. schools must be delinked from Covid jabs for kids”

“start living for kids; it would be therapeutic for having lived in fear”

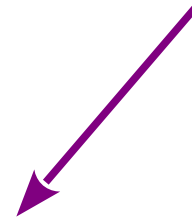

HAPPY 2022, HAPPY FOR KIDS TOO

KIDS' SMILES LONG OVERDUE
MUCH SUFFERING TO UNDO
MAKE TWENTY TWENTY-TWO
HAPPY FOR

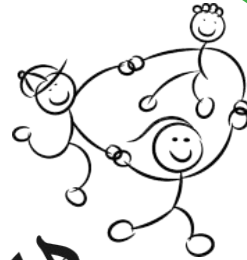

TOO

For 

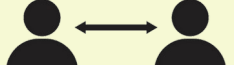

SCHOOL

Normality for 2022 Onwards: A Clarion Call

Kids have suffered enough restrictions for a disease which doesn't affect them

No  for

No **EMERGENCY**  for

 since there is no
 **EMERGENCY** for them

No  for

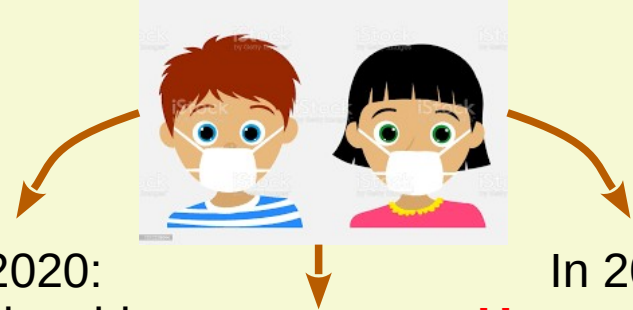

Who does it benefit?

In 2020:
Questionable
precaution

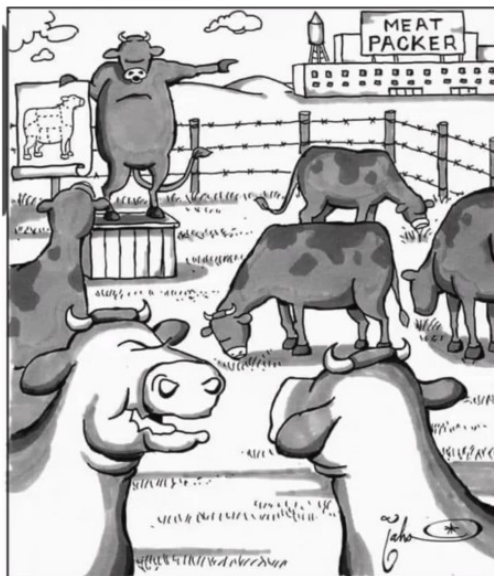

In 2021:
Fear

In 2022:
Unreasonable

Why Won't People Wake Up?

I see old "Mr. Conspiracy Theory" is at it again.

Wilful Blindness

The mind only lets you see what it thinks you can handle; else we deny and dissociate.

Cognitive Dissonance

We seek to minimise pain when things don't fit expectations (e.g., thought-stopper phrases).

System Justification

We cannot imagine that the system we benefit from could be incorrect or immoral.

Terror Management

Death causes us to 'close up' mentally; 'reality extinction' is also frightening / off-putting.

Conformity

We assume the crowd has got it right, and we are terrified of being ostracised.

In-Group

As social animals, we reject things which conflict with our group, and get more polarised.

Cognitive Misers

We don't have the time / energy to process new information or question the status quo.

Learned Helplessness

If we feel / have learned that we are powerless, then we won't even try in the first place.

Authority

We are hardwired to trust authority figures and follow their direction.

Regression

Most crave the submissive comfort of childhood; freedom means risk and responsibility

Covid Vaccination for : Questions to ask

A critique of “Why we need to vaccinate our kids against Covid” [*]

Reason-1: prevent virus transmission, societal benefit, kids can spread infection to adults

Ethical question: medical  intervention in  to benefit  ?

Logical question: when  anyway have access to C19  ?

Methodology question:
Risks very rare in kids;
trial sizes (500-2000) too small to even find these problems, let alone claim solution?

Scientific question: when current C19  do not prevent tx  to  ?

Reason-2: risk of severe Covid, MIS-C, long Covid

Do They Have Wellbeing of Your in Mind?

A critique of “Why we need to vaccinate our kids against Covid” [*]

Reason-1: prevent virus transmission, societal benefit, kids can spread infection to adults

Ethical question: medical  intervention in  to benefit  ?

Logical question: when  anyway have access to C19  ?

Scientific question: when current C19  do not prevent tx  to  ?

Methodology question:
Risks very rare in kids;
trial sizes (500-2000) too small to even find these problems, let alone claim solution?

Reason-2: risk of severe Covid, MIS-C, long Covid

Results of Pfizer's Trial: Age 12-25 Years

12-15 years: "No cases of severe Covid-19 were observed in this age cohort"

16-25 years: No report of severe Covid-19 [1]

Covid problem very rare in this age group

Severe adverse events: **3x increase**

Source: [2]	Vaccine group	Placebo group
12-15 years	7/1131	2/1129
16-25 years	9/536	3/561

Long term effects: **UNKNOWN**

This trial did not find Covid problem, cannot claim a solution
What is the basis for medical intervention in age 12-25 ?

[1] "Safety, Immunogenicity, and Efficacy of the BNT162b2 Covid-19 Vaccine in Adolescents"

<https://www.nejm.org/doi/full/10.1056/NEJMoa2107456>

[2] Table S2 in supplementary material of above publication

Results of Pfizer's Trial on Kids aged 5-11

- Cases of severe covid reduced: [1]

from ZERO to ZERO

- Cases of MIS-C reduced:
from ZERO to ZERO

Problem rare, undetected

- Severe adverse events:
increased [2]

Placebo group: ZERO

Vaccine group: **1 in 265** (6/1591)

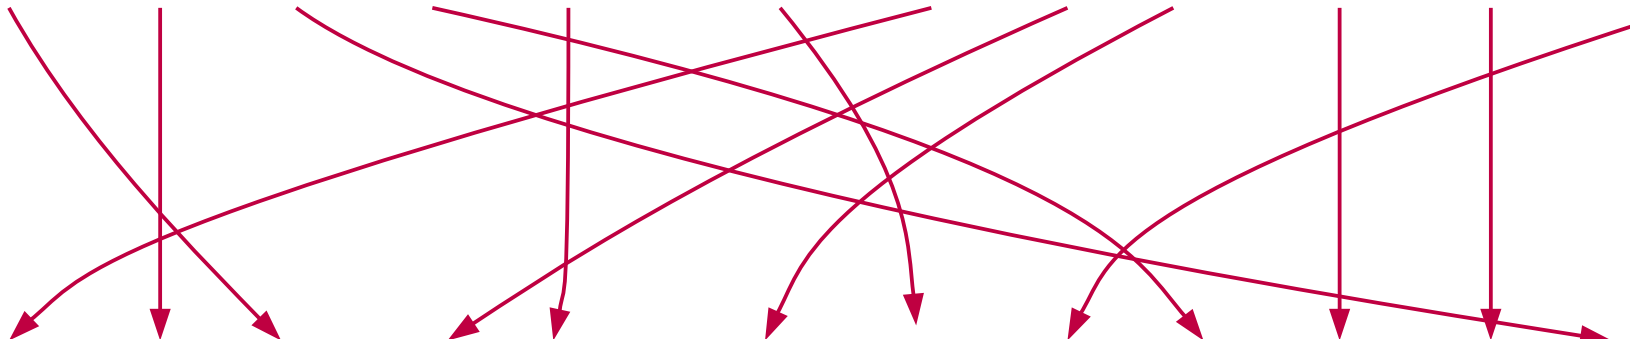

- Long term effects: **UNKNOWN**

Why medical intervention?

How come **this** was the basis of FDA's approval of Covid jabs for kids?

DELTA OMICRON

MEDIA CONTROL

The diagram consists of ten red arrows pointing from the letters of 'DELTA OMICRON' to the letters of 'MEDIA CONTROL'. The arrows are as follows: Delta to Media, Delta to Media, Delta to Media, Delta to Media, Delta to Media, Delta to Media, Delta to Media, Delta to Media, Delta to Media, Delta to Media. This represents a many-to-many relationship where each letter in 'DELTA OMICRON' is connected to multiple letters in 'MEDIA CONTROL'.

Page 31: “MOV [molnupiravir] treatment was associated with a modest but **significantly higher nucleotide mutation rate** in SARS-CoV-2 populations”

Table 6. MK-4482-002 (P002, Part 2): SARS-CoV-2 RNA Mutation Rate (Number of Nucleotide Changes/10,000 Nucleotides Sequenced Across Entire Genome)

Visit	Analysis Parameter	MOV 800 mg		Placebo		P-Value MOV vs. PBO ¹
		N	Median (Range)	N	Median (Range)	
Baseline	Number of SARS-CoV-2 mutations relative to reference (NP swab)	42	13.0 (9-20)	50	12.7 (10-16)	0.272
Day 5 (EOT)	Number of SARS-CoV-2 mutations relative to baseline (NP swab)	42	2.5 (0-46)	50	1.3 (0-30)	0.005

Source: FDA analysis of Sponsor-reported mutation rates.

¹ Wilcoxon test

Abbreviations: EOT, end of treatment; MOV, molnupiravir; NP, nasopharyngeal; PBO, placebo

Why are they approving a drug with “reduced efficacy”, when their own data shows a **near DOUBLING of the mutation rate?**
The same FDA ran a PR campaign against Ivermectin, a safe and nobel-prize winning drug.

<https://www.cnbc.com/2021/11/30/fda-advisory-panel-narrowly-endorses-mercks-oral-covid-treatment-pill-despite-reduced-efficacy.html> (30 Nov 2021) “FDA advisory panel narrowly endorses Merck’s oral Covid treatment pill, **despite reduced efficacy and safety questions**”

30 Nov 2021

Louisiana federal judge blocks nationwide COVID vaccine mandate for health care workers

A Louisiana U.S. district judge blocked a federal COVID-19 vaccine mandate for health care workers Tuesday, issuing a nationwide injunction

"If human nature and history teach anything, it is that [civil liberties face grave risks when governments proclaim indefinite states of emergency](#)."

Judgment:

<https://storage.courtlistener.com/recap/gov.uscourts.lawd.185837/gov.uscourts.lawd.185837.28.0.pdf>

Page 25: "The rejection of [natural immunity](#) as an alternative is puzzling"

Page 26: "natural immunity provides [equivalent or greater protection](#) against severe infection than immunity generated by COVID-19 vaccines."

Page 26: If [boosters](#) are needed six months after being "fully vaccinated," then how good are the COVID-19 vaccines, and why is it necessary to mandate them?

Page 26: "...the [COVID-19 vaccines do not prevent transmission](#) of the disease among the vaccinated or mixed vaccinated/unvaccinated populations, and... mandatory COVID-19 vaccines for hospitals [do not increase safety for employees or hospital patients](#)"

Federal Judge Halts Biden Shot Mandate for Health Care Workers

29 Nov 2021

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF MISSOURI EASTERN DIVISION

29 Nov 2021

Judgment: <http://cdn.cnn.com/cnn/2021/images/11/29/gov.uscourts.moed.191888.28.0.pdf>

page 1: This case concerns the Centers for Medicare and Medicaid Services' ("CMS") federal vaccine mandate on a wide range of healthcare facilities

page 14: The **mandate is arbitrary and capricious** because the record is devoid of evidence regarding the covered healthcare facilities.

page15/16: Indeed, CMS states that **"the effectiveness of the vaccine[s] to prevent disease transmission by those vaccinated [is] not currently known"**

page 16: CMS also admits that the **continued efficacy of the vaccine is uncertain.**

page 16: No one questions that protecting patients and healthcare workers from contracting COVID is a laudable objective. But the Court cannot, in good faith, allow CMS to enact an unprecedented mandate that **lacks a "rational connection between the facts found and the choice made."**

US COURT HAS UPHELD THE STAY ON PRESIDENT BIDEN'S VACCINE MANDATE

Judgment date: 12 Nov 2021

Judgement PDF: <https://indianbarassociation.in/us-court-has-upheld-the-stay-on-president-bidens-vaccine-mandate/>

Page 6/7:

- “...dubious assumption that the Mandate does pass constitutional muster”
- “it is nonetheless fatally flawed on its own terms”
- “rare government pronouncement that is both overinclusive ... and underinclusive”
- “a purported “emergency” that the entire globe has now endured for nearly two years, and which OSHA itself spent nearly two months responding to is unavailing as well”
